PREFACE

The Senate Appropriations Committee is pleased to present the *Annual Fiscal Report*. It is designed to provide legislators, legislative and departmental staff, and the public with detailed information about the appropriations and budget process that occurred during the 97th General Assembly, 1st Regular Session (2013) as well as information about fiscal and budget issues for previous years.

The Report is divided into five sections.

Section I, **FY 2014 Statewide Budget Information**, provides a summary of Missouri's \$24.8 billion operating budget for Fiscal Year (FY) 2014. This section includes the appropriation bill totals for the operating budget and an appropriation veto summary. In addition, this section contains the Fiscal Year 2014 General Revenue estimate, a full-time equivalent (FTE) summary by department, and several charts and graphs depicting revenue and appropriation information. Section I also includes a budget process overview and the calendar of floor actions for the FY 2014 appropriation bills.

Section II, **FY 2014 Departmental Budget Information**, provides detailed budget information for each state department. This section includes the appropriation amount, percentage increases or decreases, and the major changes from the previous fiscal year for each state department.

Section III, **Missouri State Finances**, includes information regarding the budget reserve fund and past state revenue collections. In addition, this section provides historical expenditure information on the state's operating and capital improvement budgets. It also contains an analysis of state tax credits, bond indebtedness, and the distribution of gaming, lottery and tobacco settlement revenues.

Section IV, **Legislation**, provides a fiscal impact summary of legislation passed during the 2013 session. This section includes summaries for House Bill 253, Senate Bill 23, and Senate Bill 1. The section also includes a summary of the legislative and budgetary changes, as approved by the General Assembly, for the renters' portion of the Senior Citizen's Property Tax Credit and the Missouri Senior Services Protection Fund.

Section V, **Topics of Interest**, provides information about a wide variety of subjects. This section contains information relating to the total state revenue calculation, state rankings, the highway fund cap, state employee pay plan history, capital improvements, maintenance and repair, the foundation formula and Proposition A.

We hope that the *Annual Fiscal Report* will provide the reader with a wide range of interesting topics regarding the Missouri state budget and finances. If you have any comments or suggestions, please send them to Adam Koenigsfeld, Senate Appropriations Committee Staff, Room B-8 in the State Capitol Building, fax them to (573) 751-4778 or e-mail him at akoenigsfeld@senate.mo.gov.

Section I

FISCAL YEAR 2014 STATEWIDE BUDGET INFORMATION

BUDGET PROCESS OVERVIEW

STATE OF MISSOURI

I. Department Budget Preparation

- A. State agencies prepare budget requests during the summer and fall for the following fiscal year in accordance with guidelines issued by the Office of Administration's (OA) Division of Budget and Planning.
- B. Budget requests are submitted to OA-Budget and Planning by October 1. Copies are also submitted to the legislature at the same time.

II. Governor Recommends Executive Budget

- A. After analysis by OA-Budget and Planning, the Executive Budget is published in mid-January.
- B. Governor gives State of the State and Budget Message to a Joint Session of the Legislature within the first few weeks of the legislative session in January.
- C. Appropriations Bills are introduced by the Chairman of the House Budget Committee.

III. House Appropriations Committees Operating Budget Hearings

- A. After introduction, Appropriations Bills are referred to the House Budget Committee for assignment to the appropriate House Appropriations Committee.
- B. Each House Appropriations Committee (Agriculture and Natural Resources; Education; General Administration; Health, Mental Health, and Social Services; Public Safety and Corrections; and Transportation and Economic Development) holds budget hearings in late January or early February for agencies to testify on their budget requests and the Governor's recommendations.

IV. House Action on Emergency and Supplemental Appropriations

- A. House Budget Committee conducts hearings on emergency and supplemental requests for the current year early in the session. Emergency and supplemental appropriations are for unforeseen changes or circumstances in the current fiscal year. The legislature takes action only on the requests recommended by the Governor.
- B. House Budget Committee "marks-up" emergency and supplemental appropriation bills and sends House Committee Substitute bills to the full House for action.

V. House Appropriations Committee Operating Budget Recommendations

- A. House Appropriations Committees “mark-up” the operating budgets and staff prepares House Committee Substitutes to reflect the committees’ recommendations.
- B. House Appropriations Committees’ Chairpersons present recommendations to the House Budget Committee.

VI. House Budget Committee Acts on Operating Budget

- A. House Budget Committee accepts the House Appropriations Committees’ recommendations, alters the recommendations, or rejects the recommendations with instructions for the House Appropriations Committees to reconsider the proposed budget.
- B. House Committee Substitute bills as approved by the House Budget Committee are sent to the full House of Representatives with a committee recommendation.

VII. House Floor Action on Operating Budget

- A. All appropriations bills for the operating budget are brought before the House of Representatives.
- B. House Committee Substitute bills as perfected by the entire House of Representatives are sent to the Senate, usually with approximately one-third of the session remaining.

VIII. House Action on Capital Budget

- A. House Budget Committee conducts hearings and “marks-up” the capital budget for recommended House Committee Substitute bills. The capital budget uses a biennial appropriations process for major, multiyear projects. During the second year of the biennium, funding is provided for critical projects not envisioned at the time of the adoption of the biennial budget.
- B. Full House passes House Committee Substitute bills and sends to the Senate.

IX. Senate Appropriations Committee Operating Budget Hearings

- A. Senate Appropriations Committee conducts department budget hearings in late January through early March.
- B. Senate Appropriations Committee “marks-up” operating budget, prepares recommendations, and staff prepares summaries of action for presentation to the full Senate.

X. Senate Appropriations Committee Action

- A. Senate Appropriations Committee conducts hearings and “marks-up” emergency and supplemental appropriations to prepare Senate Committee Substitute for appropriations bill for emergency and supplemental items.

- B. Senate Appropriations Committee conducts hearings and “marks-up” the capital budget to develop Senate Committee Substitute bills.

XI. Senate Action on Appropriations

- A. Full Senate adopts Senate Committee Substitutes, amends Senate Committee Substitutes, or adopts Senate Substitute bills for appropriations on emergency and supplemental, operating, and capital budgets.
- B. The Senate returns the appropriations bills to the House of Representatives for acceptance or for the House to make a request for conference to settle differences.

XII. Conference Committee(s) on Appropriations

- A. Conference Committees, consisting of five (5) members from the House of Representatives and five (5) members from the Senate, meet to achieve compromises, settle differences and adopt Conference Committee Substitute appropriations bills.
- B. Conference Committee Substitute bills are then returned to the full House and Senate to be Truly Agreed To and Finally Passed.

XIII. Governor’s Line-Item Veto

- A. Truly Agreed To and Finally Passed appropriations bills are sent to the Governor for signature.
- B. Governor either signs an appropriations bill, vetoes the entire bill, or line-item vetoes part or all of sections or lines in the bill. The Governor must act before July 1 on the appropriations bills and on that date the appropriated moneys become available to be expended.

XIV. Governor’s Control Over Expenditure Rates

- A. Governor controls the rate of expenditure against appropriations through the allotment process.
- B. An initial reserve plan is the constitutionally required 3% withholding on appropriations to be expended upon approval of the Governor.
- C. Governor may further withhold funds to reduce expenditures below appropriations whenever actual revenues are less than estimates on which the appropriations are based.

XV. Legislative Override of Governor’s Veto

- A. Legislature may override Governor’s veto of a bill or line-item by a two-thirds majority in both the House and Senate during the following legislative veto session held in September.
- B. Process begins again.

Section III

MISSOURI STATE FINANCES

BUDGET RESERVE FUND

Legal Basis: Article IV, Section 27 (a) of the Missouri Constitution

Description: The fund was authorized by constitutional amendment on the November 7, 2000 ballot. The amendment required the transfer of the fund balances from the Cash Operating Reserve Fund and the Budget Stabilization Fund to the newly created Budget Reserve Fund. The Budget Reserve Fund is exempt from the biennial transfer of the balance and earned interest to the General Revenue Fund.

Purpose: The fund can be used for cash flow insufficiencies or budget stabilization.

Cash Flow Insufficiencies – The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any state fund if the fund balance is insufficient to maintain appropriated levels. Any cash flow transfers must be repaid to the Budget Reserve Fund, with interest, on or before May 15th of the fiscal year.

Budget Stabilization – If the Governor reduces a department's appropriation level due to a revenue shortfall, or if funds are required to assist the state due to a disaster, the Governor may request appropriations from the Budget Reserve Fund.

The General Assembly must approve the request with a two-thirds vote from both houses.

No more than one-half of the fund balance may be appropriated for this purpose at any one time.

A minimum of one-third of the amount appropriated must be repaid, with interest, in each of the three following fiscal years.

Fund Balance Limits: The fund's balance is capped at 7.5% of net general revenue receipts or 10% if approved by the General Assembly for the purpose of increasing the fund balance.

Net general revenue collections are defined as "all revenue deposited into the General Revenue Fund less any refunds and revenues originally deposited into general revenue but designated by law for specific distribution or transfer to another state fund."

Excesses above the caps are transferred back to the General Revenue Fund. If the balance is less than 7.5% then the difference stands appropriated and transferred from the General Revenue Fund to the Budget Reserve Fund.

CONSENSUS STATE REVENUE ESTIMATE & RECEIPTS FY 2011 thru FY 2014

The consensus revenue estimate calculated by the Office of Administration and the General Assembly attempts to provide an accurate revenue forecast for the upcoming fiscal year, based upon projections of both the national and state economic conditions and trends. The revenue estimate is one of the first areas that is analyzed before the state budget is formulated and is usually finalized in the December preceding the next fiscal year.

State of Missouri

Bonded Indebtedness

The General Assembly is authorized by constitutional and statutory provisions to authorize the issuance of debt for various purposes. The Board of Fund Commissioners and the Board of Public Buildings are responsible for managing the state's issuance of general obligation instruments and revenue bonds, respectively. In addition, the General Assembly has created several financing authorities responsible for raising capital via debt issuance for specific purposes.

General Obligation Bonds

General obligation bonds are secured by a pledge of the full faith, credit and resources of the State. The principal and interest amounts are transferred one year in advance from the General Revenue Fund to the debt service funds from which principal and interest payments are made. Four types of general obligation bonds are currently authorized and outstanding.

Water Pollution Control (WPC) Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue Water Pollution Control general obligation bonds. The constitutional limit on WPC bonds is \$725 million (Article III, § 37(b), 37(c), 37(e), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for State use to protect the environment through the control of water pollution. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund and the Water and Wastewater Loan Revolving Fund to the Water Pollution Control Bond and Interest Fund. The Board began issuing Water Pollution Control Bonds in 1972.

Third State Building (TSB) Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue Third State Building general obligation bonds. The constitutional limit on TSB bonds is \$600 million (Article III, § 37(d), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for improvements of State buildings and property. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund to the Third State Building Bond Interest and Sinking Fund. The Board began issuing Third State Building Bonds in 1983 and issued the final series in 1987 as required by constitutional amendment.

Fourth State Building (FSB) Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue Fourth State Building general obligation bonds. The constitutional limit on FSB bonds is \$250 million (Article III, § 37 (f), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for improvements of buildings and property of higher education institutions, the Department of Corrections, and the Division of Youth Services. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund to the Fourth State Building Bond and Interest Fund. The Board began issuing

Fourth State Building Bonds in 1995. There is no remaining amount of authorization to be issued for the Fourth State Building Bonds.

Stormwater Control (SWB) Bonds

The Board of Fund Commissioners is authorized by constitutional amendment to issue Stormwater Control general obligation bonds. The constitutional limit on SWB bonds is \$200 million (Article III, § 37(h), Missouri Constitution). These bonds are issued, upon approval of the General Assembly, to provide funds for State use to protect the environment through the control of stormwater. The principal and interest on these bonds are paid from moneys transferred from the General Revenue Fund to the Stormwater Control Bond and Interest Fund.

Revenue Bonds

Upon approval of the General Assembly, the Board of Public Buildings is authorized to issue revenue bonds for state building projects to house state agencies. The total statutorily authorized issuance amount is \$945,000,000. The Department of Natural Resources (DNR) is also authorized to issue revenue bonds with the General Assembly's approval. DNR uses revenue bond proceeds for the acquisition and/or development of park facilities.

Revenue bonds are secured by revenues generated from the projects they finance and are not backed by the full faith and credit of the state. Section 8.420, RSMo, limits revenue bond issuance by the Board of Public Buildings to \$825 million. Sections 253.210-253.280, RSMo, limit revenue bonds issued by DNR to \$5,167,000 for state parks.

Both the Board of Public Buildings and DNR are allowed by statute to issue bonds for the purpose of refunding outstanding issues. As with general obligation bonds, revenue bonds are refunded when lower rates of interest are available.

Other Debt Issuances

Regional Convention and Sports Complex Authority

On August 15, 1991, the St. Louis Regional Convention and Sports Complex Authority issued \$132,910,000 of Convention and Sports Facility Project bonds for the eastern expansion of the existing Cervantes Convention Center in St. Louis. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the state. However, under a financing agreement dated August 1, 1991, appropriations are made from General Revenue to pay the principal and interest due each year. The Regional Convention and Sports Complex Authority issued \$121,705,000 of Convention and Sports Facility Refunding Bonds in December 1993 and issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 on August 1, 2003. Payments are to conclude in fiscal year 2022. Annual appropriation is \$12,000,000.

Kansas City & Jackson County Convention Center

Section 67.641 RSMo establishes appropriations up to \$2,000,000 annually to be paid from the state general revenue fund to each convention and sports complex fund created pursuant to Section 67.639. In fiscal year 1991 the Kansas City Convention Center (Bartle Hall) began receiving \$2,000,000 annually from the State. Payments will continue until fiscal year 2015. In fiscal year 1991 Jackson County Convention Center (Kauffman/Arrowhead Stadium) began receiving \$2,000,000. In fiscal year 1997 the amount was increased to \$3,000,000 and will continue until fiscal year 2015.

Health and Educational Facilities Authority – UMC Arena Bonds

On November 17, 2011, the Missouri Health and Educational Facilities Authority (MOHEFA) issued \$20,125,000 of Educational Facilities Revenue Bonds Series 2011. The Refunding Educational Facilities Revenue bonds refunded \$22,770,000 of Educational Facilities Revenue Bonds Series 2001.

On November 1, 2001, the Missouri Health and Education Facilities Authority (MOHEFA) issued \$35,000,000 of Educational Facilities Revenue Bonds Series 2001 to finance the University of Missouri – Columbia (UMC) Arena Project. The State's debt service payments began in fiscal year 2005 when the first principal payment was due. Interest amounts due prior to fiscal year 2005 were paid from interest capitalized from the bond proceeds. Payments will continue until fiscal year 2022.

Conservation Commission

On December 15, 2002, the Conservation Commission sold Certificates of Participation (Conservation Commission Project) Series 2002 in the amount of \$4,700,000 to lease/purchase the Conservation Campus in Cape Girardeau from the county. The state's obligation under the certificates of participation does not constitute a general obligation or other indebtedness of the state. The certificates of participation represent proportionate ownership interests of the certificate holders in a lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. The last payment was made on December 1, 2011, after which the building became the property of the Commission.

Lease/Purchase Agreements

On June 7, 2011, the State issued Refunding Certificates of Participation Series A 2011 in the amount of \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of the Refunding Certificates of Participation Series A 2005. On March 1, 2005, the State issued Refunding Certificates of Participation Series A 2005 in the amount of \$120,490,000. The Refunding Certificates of Participation refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994; \$13,400,000 of Missouri Public Facilities Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995; \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995; and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999.

The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. The certification of participation represents proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate, and are subject to appropriation by the State legislature.

Missouri Development Finance Board

On November 30, 2005 the Missouri Development Finance Board issued Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 in the amount of \$28,995,000. The Board issued the bonds to finance the purchase of three buildings in St. Louis (Florissant, St. Louis, and Jennings). The Board additionally issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 on May 31, 2006 for the purchase of a building in St. Louis. The State has entered into a lease with the Board. On June 11, 2013 the Board issued Missouri Development Finance Board Leasehold Revenue Refunding Bonds Series A 2013 in the amount of \$21,820,000 and Series B 2013 in the amount of \$7,450,000 to refund \$20,805,000 of Missouri Development Finance Board Leasehold Revenue Bonds Series 2005 and \$7,100,000 of Missouri Development Finance Board Leasehold Revenue Bonds Series 2006, respectively.

Guaranteed Energy Savings Contracts

The State of Missouri, Office of Administration, Division of Facilities Management Design and Construction (FMDC) has entered into various Guaranteed Energy Saving Contract (ESCO) leases as part of a master lease agreement. RSMo 8.235.4 allows the Office of Administration to use the master lease for guaranteed energy cost savings contracts. FMDC has utilized this authority to produce energy savings, reduce consumption, reduce pollution, and increase productivity at facilities around the state. These projects have been financed for a period of 15 years at fixed interest rates ranging between 2.20% and 4.03%. The state issued financing in the amount of \$69,643,282 with a final maturity date of November 1, 2023.

Unified Communication Contract

The State of Missouri, Office of Administration, Information Technology Services Division (ITSD) has entered into a Unified Communication lease with Key Government Finance to purchase, upgrade, and replace the State's telecommunications system. The lease is being financed in multiple phases with each phase not to exceed 7 years at an interest rate of 2.99%. Phase I was refinanced as of February 10, 2012, which lowered the interest rate to 1.14%. Phase II was refinanced as of September 28, 2012, which lowered the interest rate to 0.99%. Phase III was financed as of June 28, 2013 with an interest rate of 0.99%. Missouri Highways and Transportation Commission

The Missouri Highways and Transportation Commission, authorized by the State Highway Act, issues bonds for the purpose of providing funds to finance project costs for highway construction and repairs for the State Highway System. The principal and interest of the State Road Bonds are payable solely from the State Road Fund's revenues as provided in the Missouri

Constitution. The following State Road Bonds were issued by the MO Highways and Transportation Commission:

- In December 2000, Series A 2000 State Road Bonds was issued for \$250,000,000.

GAMING & GAMING COMMISSION REVENUE

Senate Bill 10 & 11 (86th General Assembly, 1st Regular Session, 1994) created the Missouri Gaming Commission, which became responsible for the licensing and regulation of excursion gambling boats throughout the state. After June 30, 1994, this act also provided for the transfer of responsibilities of licensing and regulation of bingo activities to the Gaming Commission.

Revenues generated from the gaming industry provide for the operation of the Missouri Gaming Commission (§ 313.835 RSMo), as well as providing a portion of the funding for education throughout the state (§ 313.835 RSMo; Article IV, Section 15, Missouri Constitution). The following information outlines how gaming revenues are divided between the State Education Fund and the Gaming Commission.

Gaming Revenue in Missouri

The following summarizes how the funding mechanism allocates dollars to both the operation of the Gaming Commission and to the State Education Fund.

- There is a \$2 boarding fee, paid either by the gambler or the casino, of which \$1 supports the operation of the Gaming Commission and the other \$1 goes to the local government.
- 79% of the gamblers' losses goes to the boat, while 2.1% goes to the local government. The remaining 18.9% (Gaming Tax) is allocated to the Classroom Trust Fund for education.

****NOTE:** The amounts listed above for the Veterans Commission Capital Improvements Trust Fund, National Guard Trust, MO College Guarantee are transferred amounts from HB 8. The remaining items; Juvenile Court Diversion (HB 11), Early Childhood (HB 2, 10, 11), Compulsive Gambling (HB 10), and Administrative Expenses (HB 8) are appropriated dollar amounts.

#NOTE: With the passage of HB 1731 (2012) the amounts appropriated to the Veteran's Commission CI Trust Fund and Early Childhood Development Education and Care Fund change. In FY 13, the appropriations bills were structured to account for both the passage of the legislation and current status if the legislation did not pass (therefore Veteran's Commission receiving the Early Childhood Development Education and Care funds).

FY 2014 Lottery Sales Estimate

The Missouri State Lottery was created by voter approval of Constitutional Amendment No. 5 on November 6, 1984. Section 39(b) of Article III of the Missouri Constitution requires that a minimum of 45% of money received from the sale of Missouri state lottery tickets shall be awarded as prizes. The Constitution was further amended on August 4, 1992 to dedicate net lottery proceeds solely to public institutions of elementary, secondary, and higher education.

FY 2014 Lottery Sales Estimate \$1.199 billion

TOBACCO SETTLEMENT PROCEEDS

In 1997, the state of Missouri sued 18 tobacco companies on the basis of violations of the Missouri Merchandising Act and antitrust laws, as well as for reimbursement for health care costs and a variety of other claims. In November 1998, Missouri entered into the Master Settlement Agreement ("MSA") in resolution of the litigation in the Circuit Court of the City of St. Louis. Missouri agreed to dismiss all claims in exchange for a series of monetary payments, continued for at least 25 years, and non-monetary benefits, such as a prohibition against certain tobacco advertising. The court approved the settlement on March 5, 1999. Several parties, including public hospitals and other political subdivisions of the state, appealed the MSA and the denial of motions to intervene in the case at the trial level. The Missouri Court of Appeals, Eastern District, upheld the decision of the trial court to approve the settlement, and the Missouri Supreme Court accepted the transfer of the appeal. The Missouri Supreme Court issued its opinion approving the settlement on December 12, 2000.

Settlement Proceeds

The MSA provides that tobacco companies will make payments into an escrow account from which moneys will be disbursed to the state. Missouri's share is estimated at \$3.7 billion over 25 years. This estimate includes adjustments, reductions and offsets, which are calculated on a yearly basis. A schedule of payments and the estimated revenues are shown below.

<u>Fiscal Year</u>	<u>Amount (in millions of dollars)</u>
FY 2001	\$ 338.2 (actual)
FY 2002	\$ 172.7 (actual)
FY 2003	\$ 166.9 (actual)
FY 2004	\$ 143.1 (actual)
FY 2005	\$ 144.9 (actual)
FY 2006	\$ 133.1 (actual)
FY 2007	\$ 140.2 (actual)
FY 2008	\$ 155.3 (actual)
FY 2009	\$ 174.6 (actual)
FY 2010	\$ 150.0 (actual)
FY 2011	\$ 133.6 (actual)
FY 2012	\$ 135.2 (actual)
FY 2013	\$ 136.0 (actual)
FY 2014	\$ 129.8 (estimated)
FY 2015-2025	<u>\$1,409.0 (estimated)</u>
Total	\$3,662.6

The payments received in FY 2006 were \$20.9 million lower than anticipated due to funds being withheld until a pending lawsuit filed by the tobacco companies regarding changes in market-share is resolved. It is possible that the outcome of the suit will result in reductions in future payments.

Account Structure

The Governor issued an Executive Order (01-05) on February 12, 2001, creating a Healthy

Families Trust Fund within the state treasury. The Executive Order created five sub-accounts within the Fund: Early Childhood Care and Education Account; Life Sciences Research Account; Tobacco Prevention, Education and Cessation Account; Health Care Treatment and Access Account; and Senior Catastrophic Prescription Drug Account. The Executive Order did not appropriate any funds or dictate any percentages for funding allocations to any account. It directed the Office of Administration to receive and expend tobacco settlement money in accordance with the budget submitted to the General Assembly as amended and truly agreed to and finally passed bills signed by the Governor.

Executive Order 06-22 issued on June 22, 2006 abolished the five sub-accounts and established that the Healthy Families Trust Fund would expend all payments as appropriated in the budget. The rationale behind the change was to eliminate administrative overhead and double exposure of the funds to the state's cost allocation plan. According to the Office of Administration, this change will have no budgetary impact.

FY 2002 Expenditures

Due to budget shortfalls that occurred during Fiscal Year 2002, much of the tobacco settlement monies were withheld from the programs they were appropriated for and subsequently transferred to General Revenue.

Section IV

LEGISLATION

ESTIMATED FISCAL IMPACT OF LEGISLATION FOR FY 2014 – FY 2016

82 Senate Bills and 80 House Bills were “Truly Agreed To and Finally Passed” during the 97th General Assembly, 1st Regular Session, (2013). The Governor vetoed 19 Senate bills and 10 House bills.

Presented on the following pages is a summary of the estimated fiscal impact over the next three years (2014-2016) of the legislation signed by the Governor. Numbers shown in parentheses, such as (\$100,000), represent a new cost to the respective fund. Positive numbers, such as \$100,000, indicate a savings to the respective fund.

The information given on the following pages is based on information taken from the fiscal notes prepared for each bill by the Oversight Division, Committee on Legislative Research. Numbers do not include the appropriation bills. When the fiscal impact of a bill included a range, the higher figure for costs and losses, and the lower figure for income were used in calculating the fiscal impact. Actual costs may be higher or lower, depending on the actual appropriations. The totals listed for House and Senate bills do not include the unknown figures.

Detailed information on individual bills, including the fiscal note, can be obtained by contacting the Senate Appropriations Staff or accessing the Senate web page at www.senate.mo.gov and the House web page at www.house.mo.gov.

Missouri Senior Services Protection Fund

As part of the Governor's Recommended Fiscal Year 2014 budget, the Governor recommended the elimination of the renter's portion of the Senior Citizen's Property Tax Credit with the amount redeemed for the renter's portion in Fiscal Year 2012 of approximately \$56.6 million be annually deposited into a newly created fund called the Missouri Senior Services Protection Fund. Of the \$56.6 million, the Governor recommended \$11,189,901 to the Department of Mental Health; \$32,524,943 to the Department of Health and Senior Services; and \$12,885,156 to the Department of Social Services, for provider rate increases, a fund switch in the Home and Community Based Services program, and an increase for home-delivered meals.

Senate Bill 350, sponsored by Senator Dempsey, eliminated the renter's portion of the tax credit, created the new fund, and annually directed the Fiscal Year 2012 tax credit redemption amount be deposited into the fund. The funding was designated to be used for services for low-income seniors and people with disabilities. SB 350 was Truly Agreed and Finally Passed by the 97th General Assembly but was subsequently vetoed by the Governor. The Governor's stated objection to the bill was that it did not constitute comprehensive tax credit reform and the Fiscal Year 2014 budget did not direct the related funding for services for seniors.

The Missouri Senior Services Protection Fund was created, however, in House Bill 116 and House Bill 986, both passed by the 97th General Assembly and signed into law by the Governor. These acts direct \$55,100,000 of General Revenue to be deposited on a one-time basis into the Missouri Senior Services Protection Fund, with at least one-quarter of the amount deposited by each of the following dates: July 15, 2013, October 15, 2013, January 15, 2014, and March 15, 2014. The fund is allowed to retain any balance it carries over from year-to-year and may also retain any accrued interest. Moneys in the fund are to be expended on services for low-income seniors and people with disabilities. Neither bill eliminates the renter's portion of the Senior Citizen's Property Tax Credit.

The Fiscal Year 2014 budget appropriated funding from the Missouri Senior Services Protection Fund in the following manner:

- \$10,099,750 to the Department of Elementary and Secondary Education for early childhood special education;
- \$20,240,309 to the Department of Elementary and Secondary Education for First Steps;
- \$21,489,941 to the Department of Social Services for healthcare benefits for Blind Pension individuals; and
- \$3,270,000 to the Department of Social Services for Federally Qualified Health Centers (FQHCs).

House Bill 253 – Taxation Changes

Senate Bill 23, as passed by the 97th General Assembly, but vetoed by the Governor, would modify provisions related to taxation.

INCOME TAX

1. The act modifies the individual income tax rate table by reducing the maximum tax rate on personal income by one-half of a percent over a period of years. Each reduction to the rate will be by one-twentieth of a percent; however no reduction will go into effect unless the general revenue collected in the previous fiscal year exceeded the amount of general revenue collected in any one of the three fiscal years prior to such year by at least \$100 million. Once fully phased in, the top rate of tax on individual income will be five and one-half percent. If the federal government passes the Marketplace Fairness Act of 2013, or similar legislation, the maximum rate of tax on personal income will be reduced an additional one-half of a percent.
2. The act creates an individual income tax deduction for business income and phases it in over a five-year period. Taxpayers will be allowed to deduct ten percent of business income for the 2014 tax year and, once fully phased-in, will be allowed a fifty percent deduction for all tax years after the 2017 tax year. Shareholders of S corporations and partners in partnerships will be allowed a proportional deduction based on their share of ownership.
3. The act reduces the tax rate on corporate income by 3% over a period of years. Each reduction to the rate will be by three-tenths of a percent; however, no reduction will go into effect unless the general revenue collected for the previous fiscal year exceeded the amount of general revenue collected in any of the three fiscal years prior to such year by at least \$100 million. Once fully phased in, the top rate of tax on corporate income will be three and one-quarter percent.
4. Currently, there is a personal exemption amount of \$2,100 for personal income taxes. This act increases the exemption amount by \$1,000 for individuals with a Missouri adjusted gross income of less than \$20,000.

EMPLOYER INCOME TAX WITHHOLDING

Currently, an employer is allowed to file an annual withholding tax return instead of four quarterly returns when the aggregate amount withheld is less than \$20 in each of the four preceding quarters. The act changes the amount to less than \$100 in each of the four preceding quarters if the employer is not otherwise required to file a withholding return on a quarterly or monthly basis.

STREAMLINED SALES AND USE TAX AGREEMENT

1. This act requires the Department of Revenue to enter into the Streamlined Sales and Use Tax Agreement. Missouri will be represented by three delegates in meetings with other

states regarding the agreements. One delegate will be appointed by the Governor, one appointed by mutual agreement between the Speaker of the House of Representatives and the President Pro Tem of the Senate, and one will be the Director of the Department of Revenue. These delegates will report annually to the General Assembly regarding the agreement.

2. Cities imposing sales taxes must notify the Department of Revenue within 10 days of changing their boundaries. Any sales tax changes due to a boundary change will take effect on the first day of the calendar quarter 120 days after the Department receives notice of the change.
3. When a political subdivision changes its local sales tax rate or taxing boundary, such change shall take effect on the first day of the calendar quarter 120 days after the Department receives notice of the change.
4. The act requires all state and local sales taxes to have the same bases by requiring identical exemptions at the state and local level.
5. The act provides uniform sourcing rules to determine what tax rates will apply to certain transactions. Political subdivisions are prohibited from opting out of the sales tax holiday.
6. The act requires the Department to participate in an on-line registration system for sales tax collection. Registration in the system cannot be used as a factor to determine nexus with this state. The Department is required to accept electronic payments. Sellers will be allowed to deduct uncollectible bad debts attributable to taxable sales from sales tax remittances.
7. The Department must provide electronic databases for taxing jurisdiction boundary changes, tax rates, and a taxability matrix detailing taxable property and services. Sellers will be relieved from liability if they fail to properly collect tax based upon certain information provided by the department.
8. Amnesty will be available for sellers under certain circumstances following registration with the state. Monetary allowances will be provided to sellers and certified service providers for collecting and remitting state and local taxes equal to two percent of the taxes collected. Sellers and certified service providers are prohibited from simultaneously receiving the monetary allowance and the two percent timely filed discount provided under current law. The act sets out requirements for the seller and purchaser for tax exempt sales.
9. For products that are bundled, with one item being taxable and the other nontaxable, the entire product will be subject to taxation unless the provider can properly identify the nontaxable portion. For products that are bundled items with different tax rates, the highest tax rate will be used for the entire product unless the provider can properly identify the lower taxed item.

10. The provisions relating to the Streamlined Sales and Use Tax Agreement have an effective date of January 1, 2015.

USE TAX NEXUS

1. This act makes agreements between the executive branch and any person that exempts them from collection of sales and use tax void unless approved by both chambers of the General Assembly.
2. The definition of "*engages in business activities within this state*" is modified. The use of media to exploit Missouri's market will no longer make a vendor meet the definition. Being controlled by the same interests who control a seller engaged in a similar line of business in this state will also no longer meet the definition.
3. Under the Compensating Use Tax Law, a presumption is created that a vendor engages in business activities within this state if any person with a substantial nexus to Missouri performs certain activities in relation to the vendor within this state. The presumption may be rebutted by showing that the person's activities are not significantly associated with the vendor's ability to maintain a market in Missouri.
4. A second presumption is created that a vendor engages in business activities within this state if the vendor enters into an agreement with a resident of Missouri to refer customers to the vendor and the sales generated by the agreement exceeds \$10,000 in the preceding twelve months. This presumption may be rebutted by showing that the Missouri resident did not engage in activity within Missouri that was significantly associated with the vendor's market in Missouri in the preceding twelve months.
5. The definition of "*maintains a place of business in this state*" is modified to remove common carriers from its provisions. Currently, there is an exemption from the definition of vendor for vendors whose gross receipts are less than certain amounts, do not maintain a place of business in Missouri, and have no selling agents in Missouri. This act removes the exception.

TAX AMNESTY

This act grants amnesty for payment of all penalties, additions to tax, and interest accrued on state tax liability due but unpaid as of December 31, 2012. Persons that are a party to a criminal investigation or civil or criminal litigation and relating to unpaid taxes will be ineligible for the amnesty. Persons seeking amnesty must apply between August 1, 2013, and October 31, 2013, and pay the balance of taxes due within 60 days of the application being accepted. If a taxpayer granted amnesty fails to comply in good faith with all state tax laws for the next eight years, they must pay the amounts that were waived under the act. Taxpayers granted amnesty cannot participate in future amnesty programs for the same tax.

Senate Bill 23 – Motor Vehicle Tax Change

Senate Bill 23, as passed by the 97th General Assembly and signed into law by the Governor, modifies provisions related to sales tax on motor vehicles.

- 1) Eliminates both state and local use taxes on the storage, use or consumption of motor vehicles, trailers, boats, or outboard motors. This act specifies that a sales tax is to be collected for the titling of such property. The rate of tax associated with titling will be the sum of state sales tax and the local sales tax rate in effect at the address of the owner of the property;
- 2) All local taxing jurisdictions that have not previously approved a local use tax must put to a vote of the people whether to discontinue collecting sales tax on the titling of motor vehicles purchased from a source other than a licensed Missouri dealer. If a taxing jurisdiction does not hold such a vote before November 2016, the taxing jurisdiction must cease collecting the sales tax. Taxing jurisdictions may at any time hold a vote to repeal the tax. Language repealing the tax must also be put to a vote of the people any time 15% of the registered voters in a taxing jurisdiction sign a petition requesting so.

Senate Bill 1 – Second Injury Fund Change

Senate Bill 1, as passed by the 97th General Assembly and signed into law by the Governor, modifies provisions relating to the Second Injury Fund and occupational disease within the workers' compensation system.

- 1) Eliminates claims for permanent and partial disability against the Second Injury Fund after the effective date of the act. Claims for permanent total disability shall only be allowed going forward for instances when there exists a medically documented preexisting permanent disability caused by military duty or a preexisting permanent partial disability equaling a minimum of 50 weeks of compensation according to the medical standards that are used in determining compensation which is:
 - A direct result of active military duty
 - A direct result of a compensable injury
 - Not compensable but aggravates the subsequent injury; or
 - A preexisting permanent partial disability of an extremity, loss of eyesight in one eye, or loss of hearing in one ear and there is subsequent work-related injury to the opposite extremity, loss of eyesight or hearing in the other eye or ear.
- 2) Eliminates cost incurred under the fair, reasonable, and necessary expenses relating to the death and injury of employees of uninsured employers.
- 3) Requires an actuarial study annually beginning in July 2014.
- 4) Suspends life payments paid out of the Second Injury Fund for all injured employees when the employee is able to obtain suitable gainful employment or be self-employed in view of the nature and severity of the injury.
- 5) Institutes a funding mechanism to sustain the Second Injury Fund. The Director of the Division of the Workers' Compensation shall impose a supplemental surcharge not to exceed 3% of net premiums from 2014 to 2021. The provision containing the authorization of additional surcharge expires on December 31, 2021.

Section V

TOPICS OF INTEREST

Calculation of Total State Revenue

In November, 1980, Missouri citizens approved an amendment to Article X of the Missouri Constitution limiting the amount of tax revenue the State may collect in any fiscal year. The amendment, referred to as the Hancock Amendment, established a ratio between personal income and total state revenues for Fiscal Year (FY) 1981 and used that ratio to set the Total State Revenue (TSR) limit for subsequent years.

The ratio is .056395. For FY 2014, this ratio is applied to the United States Department of Commerce's calculation of Missouri personal income for calendar year 2012 to establish the FY 2014 revenue limit.

The Hancock Amendment defines total state revenues as "all general and special revenues, license and fees, excluding federal funds as defined in the budget message of the Governor for FY 1980-1981." Because the limit is actually on the General Assembly's power of taxation, revenues generated by taxes approved by voters after the adoption of the amendment are excluded from the calculation of TSR. Revenues generated by any agency acting on voter approval, i.e., the Missouri Lottery, are excluded. Also, the calculation excludes refunds of any tax included in TSR.

If in any fiscal year, TSR exceeds the limit by 1% or more, the amount of the excess is to be refunded pro rata based on the taxpayer income tax liability reported on the annual Missouri income tax returns filed in the following year. If the limit is exceeded by an amount of less than 1%, the excess is transferred to the General Revenue Fund.

In any fiscal year, the revenue limit may be exceeded if: the Governor asks the General Assembly to declare an emergency and the nature of the emergency and its cost to the state are clearly specified by the Governor; and the General Assembly declares an emergency by a two-thirds majority vote. The emergency must be declared prior to the expenditure of any "excess" revenue. Refunds resulting from provisions of the amendment cannot be the subject of any request to declare an emergency.

The Hancock Amendment includes further provisions limiting tax increases of political subdivisions and limits state government's flexibility to reduce support or impose new responsibilities on to local governments. This material is beyond the scope of this text. Interested persons should refer to the Missouri Constitution, Article X, §§ 21 and 22.

The Tobacco Master Settlement Agreement Proceeds have been determined by the Office of Administration – Division of Budget and Planning to be recovery costs for Medicaid expenses related to smoking and, therefore, exempted from Total State Revenue.

Article X, Section 18(e) states that in any one year the general assembly shall not increase taxes or fees by more than \$50 million adjusted for growth in Missouri personal income or 1% of Total State Revenue, whichever is less. For 2013, the adjusted limit was approximately \$84.2 million. If the General Assembly increases taxes or fees by more than the limit, the largest tax or fee increases must go to a vote of the people.

It is unlikely that the Hancock Amendment will be triggered in the foreseeable future. The state is currently over \$3 billion dollars below the refund threshold, and Article X, Section 18(e) of the Missouri Constitution mandates that the people must vote on any major tax increase, and therefore it would be excluded from total state revenue.

Cap on Highway Fund Appropriations to Non-Highway Agencies

Legislation (Senate Bills 135 & 63) authorizing a 4-cent motor fuel tax increase effective July 1, 1987, established a cap on expenditures from the Highway Fund by other non-highway agencies (\$226.200 (3) RSMo). The cap was set at the Fiscal Year 1987 expenditure level and was approximately \$119.6 million. The bill required that when expenditures from the Highway Fund exceeded the cap, the fund must be reimbursed from General Revenue the next fiscal year.

The motor fuel tax increased to six cents in 1992 with the passage of House Bill 1247, in which the fixed ceiling of \$119.6 million was changed to a flexible ceiling (\$142.372 RSMo). Therefore, the growth in funds allocated to non-highway agencies could increase by the same percentage as the overall increase in state highway revenue sources.

During the 2000 legislative session, the passage of House Bill 1742, re-established a fixed cap (\$ 226.200 RSMo). This action will require the reimbursement of General Revenue funds to the Highway Fund when expenditures exceed the FY 2001 level of expenditures.

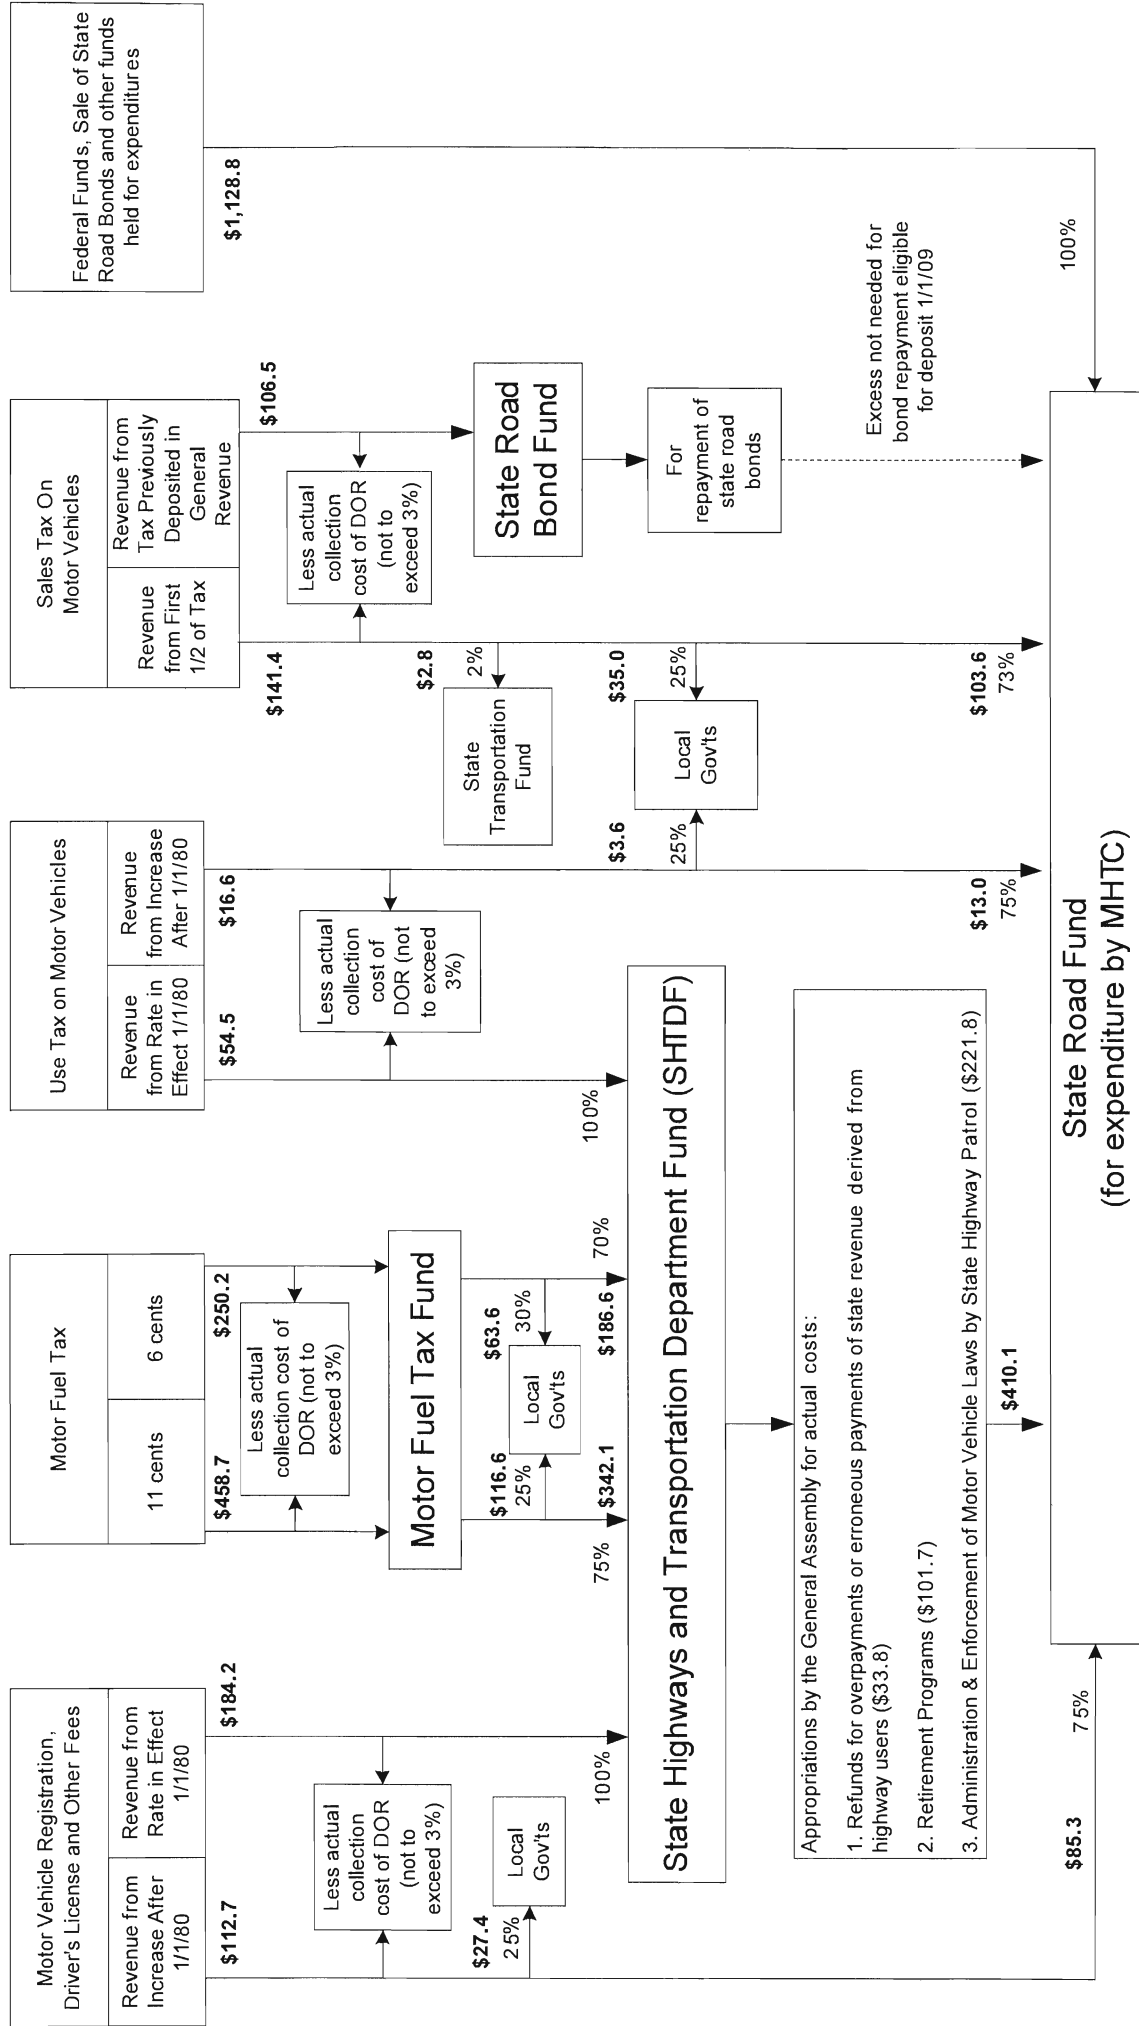

During the 2002 legislative session, the passage of House Bill 1196 provides for the removal of the cap beginning in Fiscal Year 2004 for the Mo. State Highway Patrol for enforcement related activities, and actual costs incurred by the Office of Administration for or on behalf of the Patrol and employees within the Department of Transportation. In addition, beginning in Fiscal Year 2008, any activities of the Patrol that are not related to the enforcement of laws pertaining to motor vehicle and usage of the highways shall be supported with General Revenue, or other applicable funding sources. This legislation also maintains a cap, which is set at the Fiscal Year 2001 level for the Department of Revenue, and other non-highway related agencies that are currently authorized to receive funding support from the State Highways and Transportation Department Fund.

The Department of Public Safety and Department of Revenue utilize a significant portion of Highway Fund revenue allocated for non-highway related purposes. The Department of Public Safety is compensated for patrolling the state's highways. Likewise, the Department of Revenue is compensated for implementing state motor vehicle and driver statutes. Other agencies receive Highway Fund revenue for work that relates to the state's highway system.

In 2004 Article IV, Sections 30(a), 30(b), 30(c), and 30(d) were amended such that:

- Cap the Department of Revenue's cost of collection at actual cost not to exceed 3% of the amount of highway funds collected.
- Cap the Highway Patrol's use of highway funds to actual costs of administering and enforcing any state motor vehicle laws and traffic regulations.
- Redirects the 50% of the motor vehicle sales tax that goes to general revenue to the State Road Bond Fund over a four-year period beginning July 1, 2005.

MISSOURI HIGHWAYS AND TRANSPORTATION COMMISSION (MHTC) **Road and Bridge Funding - Summary** (Effective 7/1/2006)

STATE EMPLOYEE PAY PLAN HISTORY

FY 1980 – FY 2014

The pay plan is created by the Personnel Advisory Board (PAB) and reviewed by the Ad Hock Task Force on Total Compensation. The task force recommendations are integrated into a final plan the PAB submits to the Governor's office and to Budget and Planning. The Governor makes a final recommendation to be reviewed by the legislature. Note: The Missouri Department of Transportation and Missouri Department of Conservation may implement pay plans contrary to the statewide pay plan.

THE FOUNDATION FORMULA

FY 2014 represented the eighth year of state appropriations to school districts based on the new foundation formula passed in the 2005 session (SB 287) and is the second year the formula is “fully phased-in.” This formula has not been fully funded for FY 2010, FY 2011, FY 2012, or FY 2013 and absent a significant supplemental appropriation will not be fully funded for FY 2014. The existing statute provides no clear direction for the distribution of appropriated funds when the appropriation is not sufficient to fully fund the formula calculation. The result of this is that the Department of Elementary and Secondary Education (DESE) has determined how to distribute the appropriated funds to the individual school districts in the state. DESE has made the determination for FY 2013 and FY 2014: DESE will not implement the higher State Adequacy Target that resulted from the required biannual recalculation, this will account for part of the projected shortfall. The remaining shortfall will be managed by prorating all districts’ payments proportionally.

The new foundation formula is a student-focused, successful-school model based on characteristics of those districts meeting all performance standards reflected in the Annual Performance Report (“performance districts”). Based on those districts, it establishes a “state adequacy target” (\$6,131 for FY 2012) to ensure that all districts with a tax levy of at least the performance levy (\$3.43) have that amount of money behind each student. The state adequacy target will be recalculated every two years using the most current list of performance districts, however by statute the state adequacy target cannot decrease.

- Formula payments are calculated on a per-student basis. The formula also provides additional funding through student weighting for districts whose percentage of free or reduced lunch, special education, or English proficiency students exceed the respective percentages in the performance districts. The new formula does not provide additional weight for summer school attendance.
- The state adequacy target includes expenditures from the following categories of state funding. Thus these items will no longer be funded separately:
 - Line 14 of current formula (“At-risk” programs)
 - Exceptional pupil aid (Special Education categorical)
 - Gifted education (Gifted categorical)
 - Remedial Reading categorical
 - Fair Share fund
 - Free Textbook fund
- The local revenue deduction utilized in the formula is calculated by taking \$3.43 times the 2004 assessed valuation in the school district, regardless of the district’s actual levy. The \$3.43 amount is called the performance levy. The district’s local effort deduction is frozen so that growth in local collections will be retained by the district without offsetting state aid payments.

- A dollar value modifier (DVM) is used to recognize increased operating costs in some districts, primarily in metropolitan regions.
- The formula is phased-in over seven years beginning in FY 2007. Despite the fact that the formula is not fully-funded, the statutory phase-in schedule continues. This has resulted in a formula that is fully phased-in “on paper,” but is not funded at the fully phased-in amount.
- Districts are guaranteed to receive a minimum state funding amount per student - the amount received per student in FY 2006. This amount will be adjusted upward for districts with a DVM greater than 1.0.
- A “Small Schools Fund” is established to distribute an additional \$15 million annually among districts with 350 students (average daily attendance) or less. Ten million of this is to be distributed strictly on a per-ADA, with the other five million being distributed on a weighted basis to those small districts with levies greater than the \$3.43 performance levy.
- Revenues from gaming will be accounted for separately through the Classroom Trust Fund, also established by the act. Districts are given nearly unlimited flexibility in using these funds.

HIGHER EDUCATION PERFORMANCE FUNDING MODEL

In 2011 the Commissioner of the Missouri Department of Higher Education established a Higher Education Performance Funding Taskforce, to develop a performance funding model for Missouri's higher education institutions. In 2012 the Coordinating Board for Higher Education approved the model (HEF II) developed by that taskforce and in fiscal year 2014 the General Assembly utilized that model in appropriating \$34 million additional dollars to the state's higher education institutions.

The new HEF II model uses FY2013 as the baseline year for data collection and comparisons. Each sector developed four (4) sector performance measures that each institution in the sector would be evaluated on. Each institution then selected an institution specific measure for a total of five (5) performance measures. Successful achievement of a performance measure is defined for each institution individually as improvement over that institution's performance from the previous year, or, when applicable, maintenance of a high level of performance in relation to a previously established and externally validated threshold. The measures encompass student success and progress, degree completion and professional certification, financial responsibility, and efficiency.

The model distributes new or increased funds only. Essentially any new funding for the state's higher education institutions is allocated on a "percent-up/percent-down" methodology, meaning all institutional allocations are based on the same percentage increase. An institution "earns" its allocation based on the number of its five performance targets met (each target represents "earning" 20% of their allocated increase).

Solid Waste Management Districts

The Solid Waste Management Program operates a federally authorized regulatory program pursuant to 40 CFR Part 258, Subpart D that permits, enforces, and oversees sanitary landfills. These same types of activities are performed by the program for processing facilities, such as transfer stations, infectious waste, and material recovery facilities, as set forth in the Solid Waste Management Law. The Missouri Solid Waste Management Law was passed in 1972 by Senate Bill 387, Missouri Revised Statutes (RSMo) Section 260.200 through 260.345.

Program staff conducts civil investigations of illegal dumping; offers landfill operator certification and re-certification training; and investigates possible migration of methane gas from solid waste disposal areas and seepage of leachate and methane gas into groundwater. The Scrap Tire Unit plans and oversees scrap tire dump cleanup activities; awards scrap tire material resurfacing grants; conducts scrap tire dump investigations; reviews scrap tire hauler, processor, and site permits; and provides technical assistance for beneficial use determinations. The program, working with a statewide network of partners, strives to protect the environment and public health by minimizing solid waste generated by Missouri citizens, businesses, and institutions through effective and efficient materials management. This is accomplished through oversight of the twenty (20) Solid Waste Management Districts and the district grant program.

The Solid Waste Management Program provides funding to the twenty (20) Solid Waste Management Districts for administration and funding of community-based grants. This grant program builds solid waste management infrastructure to better use materials that otherwise would have been disposed of in landfills or illegally dumped. Through projects funded by the district grant program, opportunities are provided to communities throughout Missouri to create and/or retain "green jobs" in the recycling sector of the Missouri economy. These grants encourage waste reduction, reuse, recycling, energy recovery and efficient processing of Missouri's solid wastes. Local governments, small and large businesses, schools, sheltered workshops and individuals seek and receive grants to support activities to remove materials from the waste stream and return the materials for beneficial reuse or energy recovery. The program also supports the removal of illegally dumped scrap tires from the environment by directly providing funds for tire dump roundups and other cleanup activities, as well as funding scrap tire material surfacing grants. which issue grants to applicants for reducing, reusing and recycling waste materials, thus saving limited natural resources, conserving landfill space and minimizing our impact on the environment.

During the 2013 Legislative Session, there was much debate and discussion pertaining to the funding for the twenty (20) Solid Waste Management Districts due to a high percentage of the funding being used for administration costs in several of the districts. The Senate Fiscal Year 2014 budget recommendation was \$7.05 million for loans and grants administered through this program. The final FY 2014 budget recommendation was \$12,998,820 of which \$3 million is for the scrap tire program, \$1,621,326 for department costs, \$1,621,326 for the Environmental

Improvement and Energy Resources Authority (EIARA), and \$6,671,673 for direct grants to the twenty (20) Solid Waste Management Districts, which is approximately 10% less than the FY 2012 actual expenditures for the districts.

The General Assembly passed House Bill 28 and House Bill 650, which created the Joint Committee on Solid Waste Management District Operations to be composed of five members from both the House of Representatives and Senate. The committee shall examine solid waste management district operations, including efficiency, efficacy, and reasonableness of costs and expenses of such districts to Missouri taxpayers. The committee shall prepare a report for submission, together with its recommendations for any legislative action deemed necessary, to the General Assembly by December 31, 2013, at which time the committee shall dissolve.
